What our clients say ...

Just a quick note to say how extremely happy we were with your prompt service and assistance yesterday. Thanks to you we finally have power.

We want you to know that we appreciate your efforts and are very pleased with the quality of service your company BCS Electrical provides. We sincerely appreciate your responsiveness and the way you conduct business. We will certainly recommend your company to others because of our satisfaction with your service. We look forward to doing business with you for years to come.

- Chris and Peter Michelmore

South Coast Realty always use BCS and have for years. When you don't have time to mess around, go straight to the tried and true that you can always depend on to do it right for the right price.

- Anne Johncock

4D Cabinets highly recommend BCS for all your electrical needs ... always friendly and reliable.

- Briony Ford

About us ...

BCS Electrical has been run by the Steinert family for two generations. For 32 years the business was operated by Brett and the late Bev Steinert from Inman Valley and then in Port Elliot. In 2014 they sold the business to their son-in-law and daughter, Glenn and Leanne Farr, with the intention to retire ... but Brett remains heavily involved.

The change of ownership also led to a move to 6 Lincoln Park Drive, Lincoln Park, Victor Harbor, and the opening of an interactive lighting showroom where customers can see a wide range of lighting, switches and even ceiling fans. Throughout its 30-plus years of operation the business has continued to maintain a passionate philosophy to offer exceptional customer service to the people of the South Coast. Glenn and Leanne have a strong relationship with the local community and do all they can to assist local business. BCS recognises electrical services should not be a 9 to 5 proposition so they provide a professional emergency repair service on a 24/7 basis.

Electrical safety is our priority

BCS Electrical offers quality solutions to your electrical needs. Working closely with our clients we pride ourselves on being able to achieve what sometimes seem like impossible outcomes, appreciating that the tougher jobs require more time, effort and expertise.

BCS Electrical believe that prevention is better than cure when it comes to electrical equipment. Repairing damaged electrical equipment now could save you not only the inconvenience of losing power, but could save your property and your life by preventing a fire from an electrical fault. Too often it's a case of out of sight out of mind for electrical equipment. You only ever go to your power box when you have a blackout, but there could be hazards lurking. When was the last time you checked the brackets carrying your feed into your house? Do you have a safety switch and is it functional?

Some of our safety services include:

- **Fuse box checks** including upgrades to modern fuses and safety switch installation.
- **Rewiring** may be needed where wiring was not carried out by a licensed electrician.
- **Lighting assessments** can highlight hazards

Make sure you get your switchboard and electrical equipment checked for safety before it's too late.

particularly where older light globes are running hot adjacent to timber and insulation.

- **Electrical test tagging** to check on the safety of electrical equipment and cords.

If you are concerned about the condition of your electrical equipment contact BCS Electrical to have it checked today and keep the contact number handy on your fridge or in your phone in case of problems in the future.

We recommend you contact us to arrange for an electrical safety inspection of your property. Call us today on 8554 3094. For more details about our services visit www.bcselectrical.com.au.

Lighting & fans on show

If you're in the market for new lights, lamps or ceiling fans, we offer personalised service at our interactive showroom at 6 Lincoln Park Drive, Victor Harbor. The showroom features a range of lighting and fans that you can see in operation.

We are happy to provide one-to-one service for our customers and encourage you to contact us to make an appointment to come in for a viewing of our lighting and fan displays. During the no-obligation appointment Leanne or one of the team will be happy to discuss your needs and conduct demonstrations for you.

We stock a wide range of light globe options too and can give you advice on the right globes to suit your lighting needs and that can save you money.

If you have plans for a new home or extension we can take a look and help you make your selections.

You can choose to purchase your lights or fans alone or we can arrange for one of our qualified and licensed electricians to install them for you.

To arrange an appointment phone today on 8554 3094 or visit our showroom at 6 Lincoln Park Drive, Victor Harbor.

Leanne can offer you personalised assistance to select your lights or fans.
